PART I

As used in this Quarterly Report on Form 10-Q, the terms “Scripps,” “Company,” “we,” “our,” or “us” may, depending on the context, refer to The E.W. Scripps Company, to one or more of its consolidated subsidiary companies, or to all of them taken as a whole.

Item 1. Financial Statements

The information required by this item is filed as part of this Form 10-Q. See Index to Financial Information at page F-1 of this Form 10-Q.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The information required by this item is filed as part of this Form 10-Q. See Index to Financial Information at page F-1 of this Form 10-Q.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The information required by this item is filed as part of this Form 10-Q. See Index to Financial Information at page F-1 of this Form 10-Q.

Item 4. Controls and Procedures

The information required by this item is filed as part of this Form 10-Q. See Index to Financial Information at page F-1 of this Form 10-Q.

PART II

Item 1. Legal Proceedings

We are involved in litigation and regulatory proceedings arising in the ordinary course of business, such as defamation actions and governmental proceedings primarily relating to renewal of broadcast licenses, none of which is expected to result in material loss.

Item 1A. Risk Factors

There have been no material changes to the risk factors disclosed in Item 1A. Risk Factors in our 2020 Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On January 7, 2021, in connection with the ION transaction, we issued to Berkshire Hathaway, Inc. and certain of its subsidiaries 6,000 shares of series A preferred stock (the Preferred Shares) with a warrant to purchase approximately 23.1 million shares of Scripps Class A common stock at an exercise price of \$13 (the Warrant) for \$600 million. The Preferred Shares and the Warrant have not been registered under the Securities Act of 1933, as amended, and were issued and sold in a private placement pursuant to Section 4(2) thereof. See Note 3. Acquisitions and Note 14. Capital Stock, in the Notes to Condensed Consolidated Financial Statements in Part I Item 1 of this Form 10-Q for more information.

In February 2020, our Board of Directors authorized a new share repurchase program of up to \$100 million of our Class A Common shares through March 1, 2022. No shares have been repurchased under the authorization. Under the terms of the Preferred Shares, we are prohibited from repurchasing our common shares until all Preferred Shares are redeemed.

Item 3. Defaults Upon Senior Securities

There were no defaults upon senior securities during the quarter ended June 30, 2021.

The E.W. Scripps Company
Notes to Condensed Consolidated Financial Statements (Unaudited)

1. Summary of Significant Accounting Policies

As used in the Notes to Condensed Consolidated Financial Statements, the terms “Scripps,” “Company,” “we,” “our,” or “us” may, depending on the context, refer to The E.W. Scripps Company, to one or more of its consolidated subsidiary companies, or to all of them taken as a whole.

Basis of Presentation — The condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. The interim financial statements should be read in conjunction with the audited consolidated financial statements, including the notes thereto included in our 2020 Annual Report on Form 10-K. In management’s opinion, all adjustments (consisting of normal recurring accruals) necessary for a fair presentation of the interim periods have been made.

Results of operations are not necessarily indicative of the results that may be expected for future interim periods or for the full year.

Expense amounts that were previously reported under the captions “Employee compensation and benefits,” “Programming,” and “Other expenses” in our 2020 Condensed Consolidated Statements of Operations have been reclassified into line items captioned as either “Costs of revenues” or “Selling, general and administrative expenses.” Costs of revenues reflect the costs of providing our broadcast signals, programming and other content to respective distribution platforms. The costs captured within the costs of revenues caption include programming, content distribution, satellite transmission fees, production and operations and other direct costs. Selling, general and administrative expenses are primarily comprised of sales, marketing and advertising expenses, research costs, certain occupancy costs and other administrative costs.

Principles of Consolidation — The consolidated financial statements include our accounts and those of our wholly-owned and majority-owned subsidiaries and variable interest entities (VIEs) for which we are the primary beneficiary. We are the primary beneficiary of a VIE when we have the power to direct the activities of the VIE that most significantly impact the economic performance of the VIE and have the obligation to absorb losses or the right to receive returns that would be significant to the VIE. Noncontrolling interest represents an owner’s share of the equity in certain of our consolidated entities. All intercompany transactions and account balances have been eliminated in consolidation.

Investments in entities over which we have significant influence but not control are accounted for using the equity method of accounting. Income from equity method investments represents our proportionate share of net income generated by equity method investees.

Nature of Operations — We are a diverse media enterprise, serving audiences and businesses through a portfolio of local and national television brands. All of our businesses provide content and services via digital platforms, including the Internet, smartphones and tablets. Our media businesses are organized into the following reportable business segments: Local Media, Scripps Networks and Other. Additional information for our business segments is presented in the Notes to Condensed Consolidated Financial Statements.

Use of Estimates — Preparing financial statements in accordance with accounting principles generally accepted in the United States of America requires us to make a variety of decisions that affect the reported amounts and the related disclosures. Such decisions include the selection of accounting principles that reflect the economic substance of the underlying transactions and the assumptions on which to base accounting estimates. In reaching such decisions, we apply judgment based on our understanding and analysis of the relevant circumstances, including our historical experience, actuarial studies and other assumptions.

Our financial statements include estimates and assumptions used in accounting for our defined benefit pension plans; the periods over which long-lived assets are depreciated or amortized; the fair value of long-lived assets, goodwill and indefinite lived assets; the liability for uncertain tax positions and valuation allowances against deferred income tax assets; the fair value of assets acquired and liabilities assumed in business combinations; and self-insured risks.

While we re-evaluate our estimates and assumptions on an ongoing basis, actual results could differ from those estimated at the time of preparation of the financial statements.

Nature of Products and Services — The following is a description of principal activities from which we generate revenue.

Core Advertising — Core advertising is comprised of sales to local and national customers. The advertising includes a combination of broadcast airtime, as well as digital advertising. Pricing of advertising time is based on audience size and share, the demographic of our audiences and the demand for our limited inventory of commercial time. Advertising time is sold through a combination of local and national sales staff and national sales representative firms. Digital revenues are primarily generated from the sale of advertising to local and national customers on our local television websites, smartphone apps, tablet apps and other platforms.

Political Advertising — Political advertising is generally sold through our Washington D.C. sales office. Advertising is sold to presidential, gubernatorial, Senate and House of Representative candidates, as well as for state and local issues. It is also sold to political action groups (PACs) or other advocacy groups.

Retransmission Revenues — We earn revenue from retransmission consent agreements with multi-channel video programming distributors (“MVPDs”) in our markets. The MVPDs are cable operators and satellite carriers who pay us to offer our programming to their customers. We also receive fees from over-the-top virtual MVPDs such as Hulu, YouTubeTV and AT&T Now. The fees we receive are typically based on the number of subscribers in our local market and the contracted rate per subscriber.

Other Products and Services — We derive revenue from sponsorships and community events through our Local Media segment. Our Scripps Networks segment offers subscription services for access to premium content to its customers.

Refer to Note 13. Segment Information for further information, including revenue by significant product and service offering.

Revenue Recognition — Revenue is measured based on the consideration we expect to be entitled to in exchange for promised goods or services provided to customers, and excludes any amounts collected on behalf of third parties. Revenue is recognized upon transfer of control of promised products or services to customers.

Advertising — Advertising revenue is recognized, net of agency commissions, over time primarily as ads are aired or impressions are delivered and any contracted audience guarantees are met. We apply the practical expedient to recognize revenue at the amount we have the right to invoice, which corresponds directly to the value a customer has received relative to our performance. For advertising sold based on audience guarantees, audience deficiency may result in an obligation to deliver additional advertisements to the customer. To the extent that we do not satisfy contracted audience ratings, we record deferred revenue until such time that the audience guarantee has been satisfied.

Retransmission — Retransmission revenues are considered licenses of functional intellectual property and are recognized at the point in time the content is transferred to the customer. MVPDs report their subscriber numbers to us generally on a 30- to 90-day lag. Prior to receiving the MVPD reporting, we record revenue based on estimates of the number of subscribers, utilizing historical levels and trends of subscribers for each MVPD.

Contract Balances — Timing of revenue recognition may differ from the timing of invoicing to customers. We record a receivable when revenue is recognized prior to invoicing, or unearned revenue when revenue is recognized subsequent to invoicing.

Payment terms may vary by contract type, although our terms generally include a requirement of payment within 30 to 90 days. In instances where the timing of revenue recognition differs from the timing of invoicing, we have determined our contracts do not include a significant financing component. The primary purpose of our invoicing terms is to provide customers with simplified and predictable ways of purchasing our products and services, not to receive financing from our customers.

The allowance for doubtful accounts reflects our best estimate of probable losses inherent in the accounts receivable balance. We estimate the allowance based on expected credit losses, including our historical experience of actual losses and known troubled accounts. As of June 30, 2021 and December 31, 2020, the allowance for doubtful accounts totaled \$3.4 million.

We record unearned revenue when cash payments are received in advance of our performance. We generally require amounts payable under advertising contracts with political advertising customers to be paid in advance. Unearned revenue totaled \$22.9 million at June 30, 2021 and is expected to be recognized within revenue over the next 12 months. Unearned revenue totaled \$14.1 million at December 31, 2020. We recorded \$7.5 million of revenue in the six months ended June 30, 2021 that was included in unearned revenue at December 31, 2020.

Leases — We determine if an arrangement is a lease at inception. Operating leases are included in operating lease right-of-use (“ROU”) assets, other current liabilities and operating lease liabilities in our Condensed Consolidated Balance Sheets.

ROU assets represent our right to use an underlying asset for the lease term and lease liabilities represent our obligation to make lease payments arising from the lease. Operating lease ROU assets and liabilities are recognized at the commencement date based on the present value of lease payments over the lease term. As the implicit rate is not readily determinable for most of our leases, we use our incremental borrowing rate when determining the present value of lease payments. The incremental borrowing rate represents an estimate of the interest rate we would incur at lease commencement to borrow an amount equal to the lease payments on a collateralized basis over the term of the lease. The operating lease ROU asset also includes any payments made at or before commencement and is reduced by any lease incentives. Our lease terms may include options to extend or terminate the lease when it is reasonably certain that we will exercise that option. Lease expense for lease payments is recognized on a straight-line basis over the lease term.

Share-Based Compensation — We have a Long-Term Incentive Plan (the “Plan”) which is described more fully in our 2020 Annual Report on Form 10-K. The Plan provides for the award of incentive and nonqualified stock options, stock appreciation rights, restricted stock units (RSUs) and unrestricted Class A Common shares and performance units to key employees and non-employee directors.

Share-based compensation costs totaled \$6.4 million and \$3.0 million for the second quarter of 2021 and 2020, respectively. Year-to-date share-based compensation totaled \$14.7 million and \$7.2 million in 2021 and 2020, respectively.

Earnings Per Share (“EPS”) — Unvested awards of share-based payments with rights to receive dividends or dividend equivalents, such as our RSUs, are considered participating securities for purposes of calculating EPS. Under the two-class method, we allocate a portion of net income to these participating securities and, therefore, exclude that income from the calculation of EPS for common stock. We do not allocate losses to the participating securities.

The following table presents information about basic and diluted weighted-average shares outstanding:

(in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Numerator (for basic and diluted earnings per share)				
Income (loss) from continuing operations, net of tax	\$ 1,213	\$ (17,512)	\$ 4,716	\$ (24,710)
Less preferred stock dividends	(12,576)	—	(24,219)	—
Numerator for basic and diluted earnings per share	<u>\$ (11,363)</u>	<u>\$ (17,512)</u>	<u>\$ (19,503)</u>	<u>\$ (24,710)</u>
Denominator				
Basic weighted-average shares outstanding	82,381	81,418	82,143	81,248
Effect of dilutive securities:				
Restricted stock units	—	—	—	—
Common stock warrant	—	—	—	—
Diluted weighted-average shares outstanding	<u>82,381</u>	<u>81,418</u>	<u>82,143</u>	<u>81,248</u>

For the three and six month periods ended June 30, 2021 and 2020, we incurred a net loss and the inclusion of RSUs would have been anti-dilutive. The June 30, 2021 and 2020 diluted EPS calculations exclude the effect from 2.5 million and 2.3 million, respectively, of outstanding RSUs that were anti-dilutive. The 2021 basic and dilutive EPS calculations also excluded the impact of the common stock warrant as the effect would be anti-dilutive.

2. Recently Adopted and Issued Accounting Standards

Recently Issued Accounting Standards — In May 2021, the Financial Accounting Standards Board ("FASB") issued new guidance that clarifies an issuer's accounting for certain modifications or exchanges of freestanding equity-classified written call options that remain equity classified after modification or exchange. Specifically, the guidance provides a "principles-based framework to determine whether an issuer should recognize the modification or exchange as an adjustment to equity or an expense." The guidance is effective for all entities with fiscal years beginning after December 15, 2021, including interim periods within those fiscal years. We are currently evaluating the impact of this guidance on our condensed consolidated financial statements.

In March 2020, the FASB issued new guidance that provides optional expedients and exceptions to certain accounting requirements to facilitate the transition away from the use of the London Interbank Offered Rate (LIBOR) and other interbank offered rates. The guidance is effective as of March 12, 2020 and will apply through December 31, 2022 to all entities, subject to meeting certain criteria, that have contracts, hedging relationships and other transactions that reference LIBOR or another reference rate expected to be discontinued because of reference rate reform. We will evaluate transactions or contract modifications occurring as a result of reference rate reform to determine whether to apply the optional guidance on an ongoing basis.

3. Acquisitions

ION Acquisition

On January 7, 2021, we completed the acquisition of national broadcast network ION Media Networks, Inc. ("ION") for \$2.65 billion. ION is a national network of broadcast stations and is the largest holder of U.S. broadcast television spectrum. The business distributes its programming through owned Federal Communications Commission-licensed television stations as well as affiliated TV stations, reaching 100 million of U.S. homes through its over-the-air broadcast and pay TV platforms. The acquisition of ION enabled us to create a full-scale national television networks business by combining the ION network with our other news and entertainment networks - Bounce, Grit, Laff, Court TV, Court TV Mystery and Newsy.

The transaction was financed with a combination of cash, debt financing and preferred equity financing, including Berkshire Hathaway's \$600 million preferred equity investment in Scripps. Berkshire Hathaway also received a warrant to purchase up to 23.1 million Class A shares, at an exercise price of \$13 per share.

To comply with ownership rules of the Federal Communications Commission, we simultaneously divested 23 of ION's television stations for a total consideration of \$30 million, which were purchased by INYO Broadcast Holdings, LLC upon completion of the acquisition. These divested stations became independent affiliates of ION pursuant to long-term affiliation agreements.

The following table summarizes the net cash consideration for the ION transaction.

(in thousands)	
Total purchase price	\$ 2,650,000
Plus: Cash acquired	14,493
Plus: Working capital	59,798
Total transaction gross cash consideration	2,724,291
Less: Proceeds from ION stations divested	(30,000)
Total transaction net cash consideration	2,694,291
Less: Cash acquired	(14,493)
Total consideration, net of cash acquired	\$ 2,679,798

The following table summarizes the preliminary fair values of the ION assets acquired and liabilities assumed at the closing date.

(in thousands)

Accounts receivable	\$ 135,006
Other current assets	24,701

Current portion of programming liabilities	(92,721)
Other current liabilities	(8,373)
Programming liabilities	(191,837)
Deferred tax liabilities	(277,009)
Operating lease liabilities	(78,438)
Other long-term liabilities	(35,066)
Total consideration, net of cash acquired	\$ 2,679,798

In the second quarter of 2021, we recorded measurement period adjustments to the preliminary ION purchase price allocation as a result of ongoing valuation procedures on assets acquired and liabilities assumed. These adjustments included increases in property and equipment of \$57.4 million and advertiser relationships of \$4.0 million, as well as decreases in FCC licenses of \$9.5 million and INYO and other affiliation relationships of \$14.0 million. The estimated amortization period for certain intangible assets were adjusted as well. These adjustments in fair value also resulted in an increase to the deferred tax liability of \$9.7 million. The impact of the measurement period adjustments to our results of operations resulted in increases to previously reported depreciation and amortization expense of \$2.0 million in 2021.

Of the value allocated to amortizable intangible assets, the INYO affiliation agreement has an estimated amortization period of 20 years, advertiser relationships have an estimated amortization period of 7 years, other affiliation relationships have an estimated amortization period of 10 years and the value allocated to trade names has an estimated amortization period of 10 years.

The goodwill of \$1.8 billion arising from the transactions consists largely of synergies, economies of scale and other benefits of a larger national broadcast footprint and becoming the largest holder of broadcast spectrum. We allocated the goodwill to our Scripps Networks segment. The transaction is accounted for as a stock acquisition which applies carryover tax basis to the assets and liabilities acquired. The goodwill is not deductible for income tax purposes.

From the January 7, 2021 acquisition date through June 30, 2021, revenues from ION's operations of \$266 million have been included in the accompanying Condensed Consolidated Statements of Operations. Acquisition and integration costs related to the transaction, including legal and professional fees and severance costs, totaled \$32.8 million for the six months ended June 30, 2021.

KCDO Television Station

On November 20, 2020, we closed on the acquisition of the KCDO television station in the Denver, Colorado market. Included in the sale was KSBS-CD, a low power translator of KCDO. Total consideration for the transaction totaled \$9.6 million. The preliminary purchase price allocated \$6.9 million to the acquired FCC license, \$1.7 million to goodwill, \$0.9 million to property and equipment and the remainder was allocated to various working capital accounts.

Pro forma results of operations

Pro forma results of operations, assuming the ION acquisition had taken place at the beginning of 2020, are presented in the following table. The pro forma results do not include KCDO, as the impact of this acquisition, individually or in the aggregate, is not material to prior year results of operations. The pro forma information includes the historical results of operations of Scripps and ION (excluding the results of the divested stations sold to INYO), as well as adjustments for additional depreciation and amortization of the assets acquired, additional interest expense related to the financing of the transactions and other transactional adjustments. The pro forma results do not include efficiencies, cost reductions or synergies expected to result from the acquisition, or retrospective fair value adjustments to the warrant. The unaudited pro forma financial information is not necessarily indicative of the results that actually would have occurred had the acquisitions been completed at the beginning of the period.

(in thousands, except per share data) (unaudited)	Six Months Ended June 30,	
	2021	2020
Operating revenues	\$ 1,112,720	\$ 1,045,043
Net income (loss) attributable to Scripps shareholders	19,911	(34,056)
Net income (loss) per share:		
Basic	\$ 0.24	\$ (0.42)
Diluted	0.23	(0.42)

Pro forma results in 2020 include \$42.2 million of non-recurring transaction related costs. The pro forma results in 2021 reflect a \$32.8 million reversal of ION transaction costs incurred that are already being captured in the 2020 pro forma results.

4. Asset Write-Downs and Other Charges and Credits

Income (loss) from continuing operations before income taxes was affected by the following:

2021 - Acquisition and related integration costs of \$35.3 million in the first six months of 2021 primarily reflect investment banking, legal and professional service costs incurred to complete and integrate the ION Media Networks, Inc. acquisition, which closed on January 7, 2021.

Restructuring costs totaled \$7.6 million in the first six months of 2021. In connection with the Newsy restructuring plan, we incurred charges in the first quarter totaling \$7.1 million for the write-downs of both capitalized carriage agreement payments and certain Newsy intangible assets. The additional restructuring charges in the second quarter are primarily attributed to employee severance and relocation costs.

We redeemed the outstanding principal amount of our 2025 Senior Notes during the second quarter of 2021. The redemption resulted in a loss on extinguishment of debt of \$13.8 million, representing the premium paid to retire the notes and write-off of unamortized debt financing costs.

During the first quarter of 2021, we completed the sale of our Triton business. The sale generated total net proceeds of \$225 million and we recognized a pre-tax gain from disposition totaling \$81.8 million.

Related to our outstanding common stock warrant, we recognized non-cash charges totaling \$31.9 million in the second quarter of 2021 and \$99.1 million for the year-to-date period of 2021. The warrant obligation was being marked-to-market each reporting period with the increase in our common stock price being the significant contributor to a higher valuation. Following an amendment to the common stock warrant agreement on May 14, 2021, the fair value of the warrant was reclassified to equity and will no longer be marked-to-market each reporting period.

2020 - Acquisition and related integration costs of \$5.1 million in the first six months of 2020 reflect contract termination costs

and professional service costs incurred to integrate the Cordillera and Nexstar-Tribune television stations.

5. Income Taxes

We file a consolidated federal income tax return, consolidated unitary tax returns in certain states and other separate state income tax returns for our subsidiary companies.

The income tax provision for interim periods is generally determined based upon the expected effective income tax rate for the full year and the tax rate applicable to certain discrete transactions in the interim period. To determine the annual effective income tax rate, we must estimate both the total income (loss) before income tax for the full year and the jurisdictions in which that income (loss) is subject to tax. The actual effective income tax rate for the full year may differ from these estimates if income (loss) before income tax is greater than or less than what was estimated or if the allocation of income (loss) to jurisdictions in which it is taxed is different from the estimated allocations. We review and adjust our estimated effective income tax rate for the full year each quarter based upon our most recent estimates of income (loss) before income tax for the full year and the jurisdictions in which we expect that income will be taxed.

The effective income tax rate for the six months ended June 30, 2021 and 2020 was 87% and 14%, respectively. Differences between our effective income tax rate and the U.S. federal statutory rate are the impact of state taxes, foreign taxes, non-deductible expenses, changes in reserves for uncertain tax positions, excess tax benefits or expense from the exercise and vesting of share-based compensation awards (\$1.7 million benefit in 2021 and \$1.1 million expense in 2020), state deferred rate changes and state NOL valuation allowance changes (\$1.2 million benefit in 2021 and \$3.5 million expense in 2020). Additionally, in the first quarter of 2021, we had a net discrete tax provision charge of \$17.1 million related to a taxable gain on the sale of the Triton business, and a \$1.0 million discrete tax provision charge related to nondeductible transaction costs for the ION acquisition. Finally, a non-deductible expense of \$102.6 million was recorded in 2021 related to issuance costs and unrealized losses on mark-to-market adjustments recorded on the common stock warrants issued in connection with the ION acquisition.

We recognize state NOL carryforwards as deferred tax assets, subject to valuation allowances. At each balance sheet date, we estimate the amount of carryforwards that are not expected to be used prior to expiration of the carryforward period. The tax effect of the carryforwards that are not expected to be used prior to their expiration is included in the valuation allowance.

6. Restricted Cash

At December 31, 2020, our cash and cash equivalents included \$1.1 billion held in a restricted cash account for the ION Media Networks, Inc. ("ION") acquisition. The restricted balance represented the senior secured notes and senior unsecured notes proceeds that were segregated as financing for the January 7, 2021 closing of the ION acquisition. Refer to Note 9. Long-Term Debt and Note 3. Acquisitions for further information on the \$550 million senior secured notes and \$500 million senior unsecured notes that were issued on December 30, 2020. At June 30, 2021, no cash was held in a restricted cash account.

7. Leases

We have operating leases for office space, data centers and certain equipment. Our leases have remaining lease terms of 1 year to 30 years, some of which may include options to extend the leases for up to 5 years, and some of which may include options to terminate the leases within 1 year. Operating lease costs recognized in our Condensed Consolidated Statements of Operations for the three months ended June 30, 2021 and 2020 totaled \$6.0 million and \$4.7 million, including short-term lease costs of \$0.4 million and \$0.1 million, respectively. Year-to-date June 30, 2021 and 2020 costs totaled \$11.9 million and \$9.6 million, including short-term lease costs of \$0.9 million and \$0.3 million, respectively.

Other information related to our operating leases was as follows:

* Fair values of the Senior Notes are estimated based on quoted private market transactions and are classified as Level 1 in the fair value hierarchy. The fair values of the term loans are based on observable estimates provided by third party financial professionals, and as such, are classified within Level 2 of the fair value hierarchy.

Scripps Senior Secured Credit Agreement

On January 7, 2021, we entered into the Sixth Amendment to the Third Amended Restated Credit Agreement ("Sixth Amendment"). Under the Sixth Amendment, the capacity of our Revolving Credit Facility was increased from \$210 million to \$400 million. Additionally, the Sixth Amendment extended the facility's maturity date to the earlier of January 2026 or 91 days prior to the stated maturity date for any of our existing loans and our existing unsecured notes that mature within the facility's term. Commitment fees of 0.30% to 0.50% per annum, based on our leverage ratio, of the total unused commitment are payable under the Revolving Credit Facility. Interest is payable on the Revolving Credit Facility at rates based on LIBOR, plus a margin based on our leverage ratio, ranging from 1.75% to 2.50%. As of June 30, 2021, we had no borrowings under the Revolving Credit Facility. As of June 30, 2021 and December 31, 2020, we had outstanding letters of credit totaling \$6.8 million and \$6.0 million, respectively, under the Revolving Credit Facility.

On October 2, 2017, we issued a \$300 million term loan B which matures in October 2024 ("2024 term loan"). Interest is currently payable on the 2024 term loan at a rate based on LIBOR, plus a fixed margin of 2.00%. Interest will reduce to a rate of LIBOR plus a fixed margin of 1.75% if the Company's total net leverage, as defined by the amended agreement, is below 2.75. The 2024 term loan requires annual principal payments of \$3 million.

As of June 30, 2021 and December 31, 2020, the interest rate on the 2024 term loan was 2.10% and 2.15%, respectively. The weighted-average interest rate was 2.10% and 2.51% for the six months ended June 30, 2021 and 2020, respectively.

On May 1, 2019, we entered into a Fourth Amendment to the Third Amended and Restated Credit Agreement ("Fourth Amendment"). Under the Fourth Amendment, we issued a \$765 million term loan B ("2026 term loan") that matures in May 2026. Interest is currently payable on the 2026 term loan at a rate based on LIBOR, plus a fixed margin of 2.56%. The 2026 term loan requires annual principal payments of \$7.6 million. Deferred financing costs and original issuance discount totaled approximately \$23.0 million with this term loan, which are being amortized over the life of the loan.

As of June 30, 2021 and December 31, 2020, the interest rate on the 2026 term loan was 3.31% and 2.65%, respectively. The weighted-average interest rate on the term loan was 3.31% and 3.01% for the six months ended June 30, 2021 and 2020, respectively.

Under the Sixth Amendment, we also issued an \$800 million term loan B ("2028 term loan") that contributed to the financing of the ION acquisition. The term loan matures in 2028 with interest payable at rates based on LIBOR, plus a fixed margin of 3.00%. Additionally, the Sixth Amendment provided that the LIBOR rate could not be less than 0.75% for our term loans that mature in 2026 and 2028. The 2028 term loan requires annual principal payments of \$8.0 million. We incurred deferred financing costs totaling \$23.4 million related to this term loan and the amendment to the Revolving Credit Facility, which are being amortized over the life of the term loan.

During the second quarter of 2021, we made an additional principal payment on the 2028 term loan totaling \$50 million and wrote off \$1.3 million of deferred financing costs related to this term loan to interest expense.

As of June 30, 2021, the interest rate on the 2028 term loan was 3.75%. The weighted-average interest rate on the term loan was 3.75% for the six months ended June 30, 2021.

The Senior Secured Credit Agreement contains covenants that limit our ability to incur additional debt and provides for restrictions on certain payments (dividends and share repurchases). Additionally, we must be in compliance with certain leverage ratios in order to proceed with acquisitions. Our credit agreement also includes a provision that in certain circumstances we must use a portion of excess cash flow to repay debt. We granted the lenders pledges of our equity interests in our subsidiaries and security interests in substantially all other personal property including cash, accounts receivables and equipment. In addition, the Revolving Credit Facility contains a covenant to comply with a maximum first lien net leverage ratio of 4.75 to 1.0 when we have outstanding borrowings on the facility. As of June 30, 2021, we were in compliance with our financial covenants.

2029 Senior Secured Notes

On December 30, 2020, we issued \$550 million of senior secured notes (the "2029 Senior Notes"), which bear interest at a rate of 3.875% per annum and mature on January 15, 2029. The proceeds of the 2029 Senior Notes were deposited into a segregated escrow account. The escrow account was subsequently released on January 7, 2021 and used toward the financing of the ION acquisition (See Note 3). The 2029 Senior Notes were priced at 100% of par value and interest is payable semi-annually on January 15 and July 15, commencing on July 15, 2021. Prior to January 15, 2024 we may redeem up to 40% of the aggregate principal amount of the 2029 Senior Notes at a redemption price of 103.875% of the principal amount plus accrued and unpaid interest, if any, to the date of redemption. We may also redeem some or all of the 2029 Senior Notes before January 15, 2024 at a redemption price of 100% of the principal amount, plus accrued and unpaid interest, if any, to the redemption date plus a "make whole" premium. On or after January 15, 2024 and before January 15, 2026, we may redeem the notes, in whole or in part, at applicable redemption prices noted in the indenture agreement. If we sell certain of our assets or have a change of control, the holders of the 2029 Senior Notes may require us to repurchase some or all of the notes. Our credit agreement also includes a provision that in certain circumstances we must use a portion of excess cash flow to repay debt. The 2029 Senior Notes are guaranteed by us and the majority our subsidiaries and are secured on equal footing with the obligations under the Senior Secured Credit Agreement. Following the release of the proceeds from escrow on January 7, 2021, the notes became secured, on a first lien basis, from pledges of equity interests in our subsidiaries and by substantially all of the existing and future assets of Scripps. The 2029 Senior Notes contain covenants with which we must comply that are typical for borrowing transactions of this nature.

We incurred approximately \$13.8 million of deferred financing costs in connection with the issuance of the 2029 Senior Notes, which are being amortized over the life of the notes.

2025 Senior Unsecured Notes

On April 28, 2017, we issued \$400 million of senior unsecured notes (the "2025 Senior Notes"), which bear interest at a rate of 5.125% per annum and mature on May 15, 2025. The 2025 Senior Notes were priced at 100% of par value and interest is payable semi-annually on May 15 and November 15. On or after May 15, 2020 and before May 15, 2023, we may redeem the notes, in whole or in part, at applicable redemption prices noted in the indenture agreement.

We incurred approximately \$7.0 million of deferred financing costs in connection with the issuance of the 2025 Senior Notes, which are being amortized over the life of the notes.

On May 15, 2021, we redeemed all the outstanding principal amount of the 2025 Senior Notes for a redemption price equal to 102.563% of the aggregate principal amount plus accrued and unpaid interest. The redemption resulted in a loss on extinguishment of debt of \$13.8 million, representing the premium paid to retire the notes and write-off of unamortized debt financing costs. The notes were redeemed with cash on hand.

2027 Senior Unsecured Notes

On July 26, 2019, we issued \$500 million of senior unsecured notes, which bear interest at a rate of 5.875% per annum and mature on July 15, 2027 ("the 2027 Senior Notes"). The 2027 Senior Notes were priced at 100% of par value and interest is payable semi-annually on July 15 and January 15. Prior to July 15, 2022, we may redeem up to 40% of the aggregate principal amount of the 2027 Senior Notes at a redemption price of 105.875% of the principal amount plus accrued and unpaid interest, if any, to the date of redemption. We may also redeem some or all of the notes before July 15, 2022 at a redemption price of 100% of the principal amount, plus accrued and unpaid interest, if any, to the redemption date plus a "make whole" premium. On or after July 15, 2022 and before July 15, 2025, we may redeem the notes, in whole or in part, at applicable redemption prices noted in the indenture agreement. If we sell certain of our assets or have a change of control, the holders of the 2027 Senior Notes may require us to repurchase some or all of the notes. The 2027 Senior Notes are fully and unconditionally guaranteed on a senior unsecured basis by certain of our existing and future domestic restricted subsidiaries. The 2027 Senior Notes contain covenants with which we must comply that are typical for borrowing transactions of this nature. There are no registration rights associated with the 2027 Senior Notes.

We incurred approximately \$10.7 million of deferred financing costs in connection with the issuance of the 2027 Senior Notes, which are being amortized over the life of the notes.

2031 Senior Unsecured Notes

On December 30, 2020, we issued \$500 million of senior unsecured notes (the "2031 Senior Notes"), which bear interest at a rate of 5.375% per annum and mature on January 15, 2031. The proceeds of the 2031 Senior Notes were deposited into a segregated escrow account. The escrow account was subsequently released on January 7, 2021 and used toward the financing of the ION acquisition (See Note 3). The 2031 Senior Notes were priced at 100% of par value and interest is payable semi-annually on January 15 and July 15, commencing on July 15, 2021. Prior to January 15, 2024 we may redeem up to 40% of the aggregate principal amount of the 2031 Senior Notes at a redemption price of 105.375% of the principal amount plus accrued and unpaid interest, if any, to the date of redemption. We may also redeem some or all of the 2031 Senior Notes before January 15, 2026 at a redemption price of 100% of the principal amount, plus accrued and unpaid interest, if any, to the redemption date plus a "make whole" premium. On or after January 15, 2026 and before January 15, 2029, we may redeem the notes, in whole or in part, at applicable redemption prices noted in the indenture agreement. If we sell certain of our assets or have a change of control, the holders of the 2031 Senior Notes may require us to repurchase some or all of the notes. The 2031 Senior Notes are also guaranteed by us and the majority our subsidiaries. The 2031 Senior Notes contain covenants with which we must comply that are typical for borrowing transactions of this nature.

We incurred approximately \$12.5 million of deferred financing costs in connection with the issuance of the 2031 Senior Notes, which are being amortized over the life of the notes.

Debt Repurchase Authorization

In May 2021, our Board of Directors provided additional debt repurchase program authorization pursuant to which we may reduce, through redemptions or open market purchases and retirement, a combination of the outstanding principal balance of our senior secured and senior unsecured notes. The authorization currently permits an aggregate principal amount reduction of up to \$600 million and expires on March 1, 2023.

10. Other Liabilities

Other liabilities consisted of the following:

(in thousands)	As of June 30, 2021	As of December 31, 2020
Employee compensation and benefits	\$ 37,712	\$ 34,020
Deferred FCC repack income	43,878	44,945

Other	30,393	9,742
Other liabilities (less current portion)	<u>\$ 524,951</u>	<u>\$ 286,365</u>

In connection with the acquisition of ION, we assumed \$25.3 million of uncertain tax position liabilities. Approximately \$21.0 million of that liability was attributed to disallowed domestic production activities deductions (DPAD). During 2021, we have reached agreement with the IRS for settlement of \$12.5 million of the DPAD liability. We would expect the remaining liability to be resolved within the next twelve months.

11. Supplemental Cash Flow Information

The following table presents additional information about the change in certain working capital accounts:

(in thousands)	Six Months Ended June 30,

Total	<u>\$ (3,029)</u>	<u>\$ 37,740</u>

12. Employee Benefit Plans

We sponsor a noncontributory defined benefit pension plan and non-qualified Supplemental Executive Retirement Plans ("SERPs"). The accrual for future benefits has been frozen in our defined benefit pension plan and SERPs.

We sponsor a defined contribution plan covering substantially all non-union and certain union employees. We match a portion of employees' voluntary contributions to this plan.

Other union-represented employees are covered by defined benefit pension plans jointly sponsored by us and the union, or by union-sponsored multi-employer plans.

The components of the employee benefit plan expense consisted of the following:

(in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2021	2020	2021	2020
Interest cost	\$ 4,103	\$ 4,918	\$ 8,206	\$ 9,835

Net periodic benefit cost — continuing operations	\$ 3,695	\$ 4,659	\$ 7,666	\$ 9,268

We contributed \$0.5 million to fund current benefit payments for our SERPs and \$12.0 million for our defined benefit pension plan during the six months ended June 30, 2021. During the remainder of 2021, we anticipate contributing an additional \$0.9 million to fund the SERPs' benefit payments. We are required to contribute an additional \$12.4 million to fund our qualified defined benefit pension plan in order to meet our 2021 funding requirements under the provisions of the Pension Funding Equity Act of 2004 and the Pension Protection Act of 2006.

13. Segment Information

We determine our business segments based upon our management and internal reporting structures, as well as the basis on which our chief operating decision maker makes resource-allocation decisions.

Effective with the January 7, 2021 close of the ION acquisition, we realigned our internal reporting structure and changed the reporting of our businesses' operating results to reflect this new structure. Under the new structure, our operating results are reported under Local Media, Scripps Networks and Other segment captions.

Our Local Media segment includes our 61 local broadcast stations and their related digital operations. It is comprised of 18 ABC affiliates, 11 NBC affiliates, nine CBS affiliates and four FOX affiliates. We also have 12 CW affiliates - four on full power stations and eight on multicast; two MyNetworkTV affiliates; three independent stations and 10 additional low power stations. Our Local Media segment earns revenue primarily from the sale of advertising to local, national and political advertisers and retransmission fees received from cable operators, telecommunications companies and satellite carriers. We also receive retransmission fees from over-the-top virtual MVPDs such as Hulu, YouTubeTV and AT&T Now.

Our Scripps Networks segment, which includes the recently acquired ION business, is comprised of nine national television networks that reach nearly every U.S. television home through free over-the-air broadcast, cable/satellite, over-the-top and digital distribution. These operations earn revenue primarily through the sale of advertising.

The operating results of our recently sold Triton business, and the other national businesses that were previously reported in our National Media segment, are aggregated with our remaining business activities in the Other segment caption.

Our respective business segment results reflect the impact of intercompany carriage agreements between our local broadcast television stations and our national networks. We also allocate a portion of certain corporate costs and expenses, including information technology, certain employee benefits and shared services to our business segments. These intercompany agreements and allocations are generally amounts agreed upon by management, which may differ from an arms-length amount.

Our chief operating decision maker evaluates the operating performance of our business segments and makes decisions about the allocation of resources to our business segments using a measure called segment profit. Segment profit excludes interest, defined benefit pension plan amounts, income taxes, depreciation and amortization, impairment charges, divested operating units, restructuring activities, investment results and certain other items that are included in net income (loss) determined in accordance with accounting principles generally accepted in the United States of America.

14. Capital Stock

Capital Stock — We have two classes of common shares, Common Voting shares and Class A Common shares. The Class A Common shares are only entitled to vote on the election of the greater of three or one-third of the directors and other matters as required by Ohio law.

In connection with the January 7, 2021 closing of the ION acquisition, we entered into a Securities Purchase Agreement with Berkshire Hathaway Inc., ("Berkshire Hathaway"), pursuant to which Berkshire Hathaway provided \$600 million of financing in exchange for 6,000 Series A Preferred Shares of the Company. The Preferred Shares, having a face value of \$100,000 per share, are perpetual and will be redeemable at the option of the Company beginning on the fifth anniversary of issuance, and redeemable at the option of the holders in the event of a Change of Control (as defined in the terms of the Preferred Shares), in each case at a redemption price of 105% of the face value, plus accrued and unpaid dividends (whether or not declared). As long as the Company pays quarterly dividends in cash on the Preferred Shares, the dividend rate will be 8% per annum. If dividends on the Preferred Shares, which compound quarterly, are not paid in full in cash, the rate will increase to 9% per annum for the remaining period of time that the Preferred Shares are outstanding. Preferred stock dividends, effective through June 15, 2021, have been paid in 2021 totaling \$21.1 million.

Class A Common Shares Stock Warrant — In connection with the Preferred Shares issuance, Berkshire Hathaway also received a warrant to purchase up to 23.1 million Class A shares, at an exercise price of \$13 per share. The warrant is exercisable at the holder's option at any time or from time to time, in whole or in part, until the first anniversary of the date on which no Preferred Shares remain outstanding. Since the holder had the option to settle the warrant through cash payment of the exercise price and/or through surrendering portions of their Preferred Shares for the stated par value, a liability was recognized for the fair value of the warrant. The valuation model, classified within Level 3 of the fair value hierarchy, included inputs for the estimated term of the warrant, the historical volatility rate of Scripps common stock and the exercise price for the warrant. At time of issuance, the fair value of the warrant totaled \$181 million and was being remeasured each reporting period with the changes in fair value of the warrant captured in the gains/ losses on stock warrants caption in the Condensed Consolidated Statements of Operations.

On May 14, 2021, the warrant agreement was amended to only permit settlement of the warrant through cash payment of the exercise price. Following the warrant amendment, the warrant is no longer accounted for as a liability award where mark-to-market changes in the fair value of the warrant are captured as gains or losses in our operating results. The fair value of the warrant was remeasured on May 14, 2021 at \$280 million resulting in non-cash charges totaling \$99.1 million for the year-to-date period of 2021. The increase in our stock price during 2021 was the primary contributor to the increase in the fair value of the warrant. The value of the liability on the amendment date was reclassified to equity within the caption Additional Paid-in Capital.

Share Repurchase Plan — Shares may be repurchased from time to time at management's discretion. Shares can be repurchased under an authorization via open market purchases or privately negotiated transactions, including accelerated stock repurchase transactions, block trades, or pursuant to trades intending to comply with Rule 10b5-1 of the Securities Exchange Act of 1934. In February 2020, our Board of Directors authorized a new share repurchase program of up to \$100 million of our Class A Common shares through March 1, 2022. No shares were repurchased under any authorizations during the first six months of 2021 or 2020. Under the terms of the Preferred Shares, we are prohibited from paying dividends on and repurchasing our common shares until all Preferred Shares are redeemed.

16. Assets Held for Sale and Discontinued Operations

Stitcher

During the second quarter of 2020, our Board of Directors approved the sale of our Stitcher podcasting business. On July 10, 2020, we signed a definitive agreement to sell the business for \$325 million, with \$265 million of cash upfront; earnout of up to \$30 million based on 2020 financial results and paid in 2021; and earnout of up to \$30 million based on 2021 financial results and paid in 2022. The transaction closed on October 16, 2020.

Beginning in the second quarter of 2020, Stitcher was classified as discontinued operations in our condensed consolidated financial statements for all periods presented.

During the first six months of 2021, the estimate for the contingent earnout consideration was increased by \$9.1 million. The current fair value estimate for the contingent earnout consideration is \$19.1 million.

Triton Digital

During the first quarter of 2021, our Board of Directors approved the sale of our Triton Digital business. On February 16, 2021, we signed a definitive agreement to sell the business and the transaction closed on March 31, 2021. The sale generated total net proceeds of \$225 million and we recognized a pre-tax gain from disposition totaling \$81.8 million.

WPIX

When we acquired the Nexstar-Tribune television stations in 2019, we granted Nexstar the option to repurchase WPIX, the CW-affiliated station in New York City. The option was exercisable from March 31, 2020, through the end of 2021, and was assignable by Nexstar to a third party. In July 2020, Nexstar assigned their option to repurchase WPIX to Mission Broadcasting, Inc., and Mission immediately exercised the option. The option price was \$75 million plus accrued interest, to be calculated on the period between September 19, 2019, the purchase date of WPIX, and the option sale closing date. The transaction closed on December 30, 2020 for cash consideration of \$83.7 million. Including interest income of \$7.6 million, we recognized gains from the WPIX disposition totaling \$6.5 million in the fourth quarter of 2020.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

This document contains certain forward-looking statements related to the Company's businesses that are based on management's current expectations. Forward-looking statements are subject to certain risks, trends and uncertainties, including changes in advertising demand and other economic conditions that could cause actual results to differ materially from the expectations expressed in forward-looking statements. Such forward-looking statements are made as of the date of this document and should be evaluated with the understanding of their inherent uncertainty. A detailed discussion of principal risks and uncertainties that may cause actual results and events to differ materially from such forward-looking statements is included in the section titled "Risk Factors." Such Risk Factors include the potential materially adverse impact of the COVID-19 pandemic on the Company's financial results or condition as a result of financial market volatility, government and regulatory actions, and disruptions to the Company's businesses. The Company undertakes no obligation to publicly update any forward-looking statements to reflect events or circumstances after the date the statement is made.

Executive Overview

The E.W. Scripps Company ("Scripps") is a diverse media enterprise, serving audiences and businesses through a portfolio of local and national media brands. We are one of the nation's largest independent owners of local television stations, with 61 stations in 41 markets that reach about 25% of U.S. television households. We have affiliations with all of the "Big Four" television networks as well as the CW and MyNetworkTV networks. In our Scripps Networks division, we operate nine news and entertainment networks - ION, Bounce, Grit, Laff, Court TV, Court TV Mystery, Newsy, Defy TV and TrueReal. We also operate an award-winning investigative reporting newsroom in Washington, D.C., and serve as the longtime steward of one of the nation's largest, most successful and longest-running educational programs, the Scripps National Spelling Bee.

We completed the acquisition of ION Media Networks, Inc. ("ION") on January 7, 2021, for \$2.65 billion. ION is a national broadcast television network that delivers popular crime and justice procedural programming to more than 100 million U.S. homes through its over-the-air broadcast and pay TV platforms. To comply with ownership rules of the Federal Communications Commission, we simultaneously divested 23 of ION's television stations, which were purchased by INYO Broadcast Holdings, LLC upon completion of the acquisition. These divested stations became independent affiliates of ION pursuant to long-term affiliation agreements. As a result of the acquisition and related divestitures, ION's programming is delivered through 48 owned and operated stations and 63 independent ION affiliated stations.

The acquisition of ION enabled us to create a full-scale national television networks business. By combining ION with our other news and entertainment networks, Scripps Networks reaches nearly every American through free over-the-air broadcast, cable/satellite, over-the-top and digital distribution, with multiple advertising-supported programming streams. The ION network airs on primary channels in its owned and operated markets and on digital subchannels in its affiliates' markets. Our other multicast networks air on digital subchannels on our and other broadcast stations.

The ION transaction was financed with a combination of cash, debt financing and preferred equity financing, including Berkshire Hathaway's \$600 million preferred equity investment in Scripps. Berkshire Hathaway did not receive any board seats or other governance rights with the preferred equity investment. Berkshire Hathaway also received a warrant to purchase up to 23.1 million Class A shares, at an exercise price of \$13 per share.

On July 1, 2021, we launched two previously announced national television networks. The two networks, which are distributed for free to viewers over-the-air and reached 92% of U.S. television homes at launch, are demo-specific and reality-based. TrueReal targets women in the 25-54 demographic and features off-network shows such as "Storage Wars," "Married at First Sight," "Hoarders," and "Little Women: LA." Defy TV targets men ages 25-54 with programming that includes off-network series such as "Pawn Stars," "Forged in Fire," "American Pickers," and "The Curse of Oak Island."

During the first quarter of 2021, the Company began notifying MVPDs carrying Newsy of our intent to exit cable and satellite distribution of the network. In April 2021, we announced plans for the over-the-top national news network to launch on over-the-air television stations as well. At its planned launch in October, we anticipate that Newsy will be available over-the-air in all major markets and in at least 90% of U.S. television homes. The network will be headquartered in Atlanta and will be carried primarily on the Scripps-owned ION stations and select Scripps local television stations and those of other station groups. In connection with this Newsy restructuring plan, we expect to incur costs related to relocating certain employees,

exiting certain contractual agreements and writing down assets associated with existing cable and satellite provider relationships. For the six months ended June 30, 2021, we have incurred restructuring charges totaling \$7.6 million, including \$7.1 million of charges for the write-downs of both capitalized carriage agreement payments and certain Newsy intangible assets.

On May 15, 2021, we redeemed the \$400 million outstanding principal amount of our 2025 Senior Notes for a redemption price equal to 102.563% of the aggregate principal amount plus accrued and unpaid interest. The notes were redeemed with cash on hand.

Our Board of Directors approved the sale of our Triton business in the first quarter of 2021 and we signed a definitive agreement to sell the business on February 16, 2021. The transaction closed on March 31, 2021 for total net proceeds of \$225 million.

Results of Operations

The trends and underlying economic conditions affecting the operating performance and future prospects differ for each of our business segments. Accordingly, you should read the following discussion of our consolidated results of operations in conjunction with the discussion of the operating performance of our business segments that follows.

On January 7, 2021, we acquired the national broadcast network ION. The inclusion of operating results from this business for the periods subsequent to the acquisition impacts the comparability of our consolidated and segment operating results.

Operating revenues increased \$206 million or 57% in the second quarter of 2021 and \$333 million or 43% for the first six months of 2021 when compared to prior periods. Excluding the impact of ION, as well as the impact of the WPIX television

station that was sold in the fourth quarter of 2020, operating revenues increased \$80 million or 23% and \$99.9 million or 14% in the quarter and year-to-date periods, respectively. Higher retransmission revenues in our Local Media group and overall growth in our legacy Scripps Networks operations contributed to both the quarter and year-over-year increases. A \$52.0 million increase in second quarter Local Media same-station core advertising revenue also contributed to the revenue improvement in the second quarter. These operating revenue increases were partially offset by a decline in same-station political revenue of \$10.0 million and \$26.5 million in the quarter and year-to-date periods, in this non-election year. The COVID-19 pandemic particularly had an impact on our 2020 results. Beginning with stay at home and similar orders, we began to see cancellations late in the first quarter, which we believe reduced our first quarter 2020 consolidated advertising revenue by about \$10 million. Second quarter 2020 results were significantly impacted by the economic downturn caused by the outbreak, with the greatest impact in April. We saw improvements in advertising revenues from April to May and from May to June.

Costs of revenues, which are comprised of programming costs and costs associated with distributing our content, increased \$45.6 million or 20% in the second quarter of 2021 and \$78.1 million or 17% for the first six months of 2021 when compared to prior periods. Programming costs, which represent the primary driver of fluctuation in costs of revenues, increased \$39.1 million in the second quarter of 2021 and \$76.0 million for the first six months of 2021 when compared to prior periods. Excluding the impacts of the ION acquisition and the WPIX disposition, programming costs increased \$15.8 million or 12% in the second quarter of 2021 and \$31.7 million or 12% for the first six months of 2021 when compared to prior periods, attributed to higher network affiliation fees at our Local Media and Scripps Networks stations, reflecting contractual rate increases, as well as an increase in programming costs associated with our legacy Scripps Networks operations.

Selling, general and administrative expenses are primarily comprised of sales, marketing and advertising expenses, research costs and costs related to corporate administrative functions. Selling, general and administrative expenses increased \$38.0 million or 36% in the second quarter of 2021 and \$54.3 million or 23% for the first six months of 2021 when compared to prior periods, primarily attributed to incremental costs incurred related to the ION acquisition, as well as increases in employee compensation and the return of marketing and advertising costs across our businesses.

Acquisition and related integration costs of \$35.3 million incurred in the first six months of 2021 primarily reflect investment banking, legal and professional service costs incurred to complete and integrate the ION acquisition, which closed on January 7, 2021.

Restructuring costs totaled \$7.6 million in the first six months of 2021. In connection with the Newsy restructuring plan, we incurred charges in the first quarter totaling \$7.1 million for the write-downs of both capitalized carriage agreement payments and certain Newsy intangible assets. The additional restructuring charges in the second quarter are primarily attributed to employee severance and relocation costs.

Depreciation and amortization of intangible assets increased from \$54.0 million in 2020 to \$80.3 million in 2021 primarily due to the acquisition of ION.

Interest expense increased in the first six months of 2021 due to the issuance of new debt to finance the ION acquisition, which included \$550 million of senior secured notes, \$500 million of senior unsecured notes and an \$800 million term loan issued upon the close of the acquisition.

We redeemed the outstanding principal amount of our 2025 Senior Notes during the second quarter of 2021. The redemption resulted in a loss on extinguishment of debt of \$13.8 million, representing the premium paid to retire the notes and write-off of unamortized debt financing costs.

In the first quarter of 2021, we recognized an \$81.8 million pre-tax gain from the disposition of the Triton business. The transaction closed on March 31, 2021 for total net proceeds of \$225 million.

The first six months of 2021 includes a \$99.1 million non-cash charge related to our outstanding common stock warrant. The warrant obligation is marked-to-market each reporting period with the increase in our common stock price being the significant contributor to a higher valuation. Following an amendment to the common stock warrant agreement on May 14, 2021, the fair value of the warrant was reclassified to equity and will no longer be marked-to-market each reporting period.

The effective income tax rate was 87% and 14% for the six months ended June 30, 2021 and 2020, respectively. Other differences between our effective income tax rate and the U.S. federal statutory rate are the impact of state taxes, foreign taxes, non-deductible expenses, changes in reserves for uncertain tax positions, excess tax benefits or expense from the exercise and vesting of share-based compensation awards (\$1.7 million benefit in 2021 and \$1.1 million expense in 2020), state deferred rate changes and state NOL valuation allowance changes (\$1.2 million benefit in 2021 and \$3.5 million expense in 2020).

Additionally, in the first quarter of 2021, we had a net discrete tax provision charge of \$17.1 million related to a taxable gain on the sale of our Triton business, and a \$1.0 million discrete tax provision charge related to nondeductible transaction costs for the ION acquisition. Finally, a non-deductible expense of \$102.6 million was recorded in the first half of 2021 related to issuance costs and unrealized losses on mark-to-market adjustments recorded on the common stock warrants issued in connection with the ION acquisition.

Discontinued Operations

Discontinued operations reflect the historical results of our Stitcher operations. During the second quarter of 2020, our Board of Directors approved the sale of our Stitcher podcasting business and we signed a definitive agreement for its sale on July 10, 2020. The transaction closed on October 16, 2020.

Business Segment Results — As discussed in the Notes to Condensed Consolidated Financial Statements, our chief operating decision maker evaluates the operating performance of our business segments using a measure called segment profit. Segment profit excludes interest, defined benefit pension plan amounts, income taxes, depreciation and amortization, impairment charges, divested operating units, restructuring activities, investment results and certain other items that are included in net income (loss) determined in accordance with accounting principles generally accepted in the United States of America.

Items excluded from segment profit generally result from decisions made in prior periods or from decisions made by corporate executives rather than the managers of the business segments. Depreciation and amortization charges are the result of decisions made in prior periods regarding the allocation of resources and are, therefore, excluded from the measure. Generally, our corporate executives make financing, tax structure and divestiture decisions. Excluding these items from measurement of our business segment performance enables us to evaluate business segment operating performance based upon current economic conditions and decisions made by the managers of those business segments in the current period.

Our respective business segment results reflect the impact of intercompany carriage agreements between our local broadcast television stations and our national networks. We also allocate a portion of certain corporate costs and expenses, including information technology, certain employee benefits and shared services to our business segments. These intercompany agreements and allocations are generally amounts agreed upon by management, which may differ from an arms-length amount. Corporate assets are primarily cash and cash equivalents, restricted cash, property and equipment primarily used for corporate purposes and deferred income taxes.

Effective with the January 7, 2021 close of the ION acquisition, we realigned our internal reporting structure and changed the reporting of our businesses' operating results to reflect this new structure. Under the new structure, our operating results are reported under Local Media, Scripps Networks and Other segment captions. The Scripps Networks segment is comprised of nine national television networks that reach nearly every U.S. television home through free over-the-air broadcast, cable/satellite, over-the-top and digital distribution. The operating results of our recently sold Triton business, and the other national businesses that were previously reported in our National Media segment, are aggregated with our remaining business activities in the Other segment caption.

Information regarding the operating performance of our business segments and a reconciliation of such information to the condensed consolidated financial statements is as follows:

Local Media — Our Local Media segment includes our 61 local broadcast stations and their related digital operations. It is comprised of 18 ABC affiliates, 11 NBC affiliates, nine CBS affiliates and four FOX affiliates. We also have 12 CW affiliates - four on full power stations and eight on multicast; two MyNetworkTV affiliates; three independent stations and 10 additional low power stations. Our Local Media segment earns revenue primarily from the sale of advertising to local, national and political advertisers and retransmission fees received from cable operators, telecommunications companies and satellite carriers. We also receive retransmission fees from over-the-top virtual MVPDs such as Hulu, YouTubeTV and AT&T Now.

National television networks offer affiliates a variety of programs and sell the majority of advertising within those programs. In addition to network programs, we broadcast internally produced local and national programs, syndicated programs, sporting events and other programs of interest in each station's market. News is the primary focus of our locally produced programming.

The operating performance of our Local Media group is most affected by local and national economic conditions, particularly conditions within the automotive and services categories, and by the volume of advertising purchased by campaigns for elective office and political issues. The demand for political advertising is significantly higher in the third and fourth quarters of even-numbered years.

Operating results for our Local Media segment were as follows:

On December 30, 2020, we completed the sale of our WPIX television station. The exclusion of the station's operating results for the periods subsequent to the disposition impacts the comparability of our Local Media operating results.

Revenues

Total Local Media revenues increased \$44.9 million or 16% in the second quarter of 2021 and \$32.5 million or 5.4% for the first six months of 2021 when compared to prior periods. Excluding the impact of the WPIX disposition, Local Media revenues increased \$58.3 million or 22% in the second quarter of 2021 and \$65.1 million or 11% for the first six months of 2021 when compared to prior periods. Increases in retransmission revenues on a same-station basis of \$15.1 million and \$35.2 million for the quarter and year-to-date periods, respectively, were partially offset by decreases in political revenues during this non-election year. While retransmission revenues have been affected by subscriber losses by the MVPDs, particularly among satellite providers, rate increases have more than offset those subscriber declines. Core advertising revenues on a same-station basis increased \$52.0 million or 48% in the second quarter of 2021 and \$55.4 million or 22% for the first six months of 2021 when compared to prior periods. Weakness in economic conditions attributed to the COVID-19 pandemic particularly had an impact on our 2020 results. We began to see cancellations late in the first quarter and estimate that the impact of the pandemic reduced our core advertising revenues by at least \$8 million in the first quarter of 2020. Second quarter 2020 results were significantly impacted by the economic downturn caused by the outbreak, with the greatest impact in April. We saw improvements in advertising revenues from April to May and from May to June.

Costs and expenses

Employee compensation and benefits increased \$4.5 million or 4.4% in the second quarter of 2021 and decreased \$0.2 million or 0.1% for the first six months of 2021 when compared to prior periods. Excluding the impact of the WPIX disposition, employee compensation and benefits increased \$12.4 million or 13% in the second quarter of 2021 and \$16.1 million or 8.1% for the first six months of 2021. The increase in employee compensation and benefits is primarily attributed to annual merit increases, higher bonus compensation year-over-year, and increases in commissions as a result of higher advertising revenue.

Programming expense increased \$8.3 million or 8.2% in the second quarter of 2021 and \$16.4 million or 8.1% for the first six months of 2021 when compared to prior periods. Excluding the impact of the WPIX disposition, the expense increased \$11.2 million or 11% in the second quarter of 2021 and \$22.1 million or 11% for the first six months of 2021 reflecting the impact of higher network affiliation fees. Network affiliation fees have been increasing industry-wide due to higher rates on renewals, as well as contractual rate increases during the terms of the affiliation agreements.

Excluding the impact of the WPIX disposition, other expenses increased \$6.7 million or 18% in the second quarter of 2021 and decreased \$0.5 million or 0.6% in the first six months of 2021 when compared to prior periods. In response to the weakened economic conditions created by COVID-19, we implemented various cost saving initiatives through general expense reductions in areas of travel, entertainment and marketing toward the end of the first quarter of 2020. The increase in the second quarter of 2021 compared to the prior year quarter reflects an increase in both national representation commissions and marketing and advertising costs.

Scripps Networks — Our Scripps Networks segment is comprised of nine national television networks - ION, Bounce, Grit, Laff, Court TV, Court TV Mystery, Newsy, and recently launched, Defy TV and TrueReal. The networks reach nearly every U.S. television home through free over-the-air broadcast, cable/satellite, over-the-top and digital distribution. Our Scripps Networks group earns revenue primarily through the sale of advertising.

Operating results for our Scripps Networks segment were as follows:

	2021	Change	2020	2021	Change	2020
Total operating revenues	\$ 238,735		\$ 66,652	\$ 452,395		\$ 143,407

On January 7, 2021, we acquired the national broadcast network ION. The inclusion of operating results from this business for the periods subsequent to the acquisition impacts the comparability of our consolidated and segment operating results.

Revenues

Scripps Networks revenues, which are primarily comprised of advertising revenues, increased \$172 million for the second quarter of 2021 and \$309 million for the first six months of 2021 when compared to prior periods. The amount of advertising revenue we earn is a function of the pricing negotiated with advertisers, the number of advertising spots sold and the audience impressions delivered. Weakness in economic conditions that began toward the end of the 2020 first quarter, reflecting the impact of the COVID-19 pandemic, negatively affected 2020 year-to-date and particularly second quarter 2020 advertising spending and rates for our Scripps Networks' businesses. The impact of the ION acquisition and significant year-over-year increases in advertising rates for our legacy Scripps Networks businesses, particularly direct response rates, were the primary drivers of revenue increases in the quarter and year-to-date periods.

Costs and expenses

Employee compensation and benefits increased \$10.8 million or 87% in the second quarter of 2021 and \$20.9 million or 80% for the first six months of 2021 when compared to prior periods. Full-time equivalent employees have increased over 70% when compared to 2020 periods, reflecting the impact of the ION acquisition and continued investment to support the growth of our legacy Scripps Networks' businesses. Higher year-over-year bonus compensation also contributed to the increase in employee compensation and benefits.

Programming expense increased \$31.1 million or 93% in the second quarter of 2021 and \$60.4 million or 92% for the first six months of 2021 when compared to prior periods. Costs attributed to acquired ION programming and ION affiliation fees totaled \$26.1 million for the second quarter of 2021 and \$50.1 million for the first six months of 2021. The remaining increase is primarily driven by higher affiliate fees reflecting both contractual rate increases and increased distribution across the legacy Scripps Networks' businesses.

Other expenses increased \$25.0 million in the second quarter of 2021 and \$40.4 million for the first six months of 2021 when compared to prior periods. The increase primarily reflects incremental occupancy, marketing and other administrative costs related to the ION acquisition. Additionally, marketing, advertising and rating services costs attributed to our legacy Scripps Networks' businesses increased \$1.6 million in the second quarter of 2021 and \$4.4 million for the first six months of 2021.

Shared services and corporate

We centrally provide certain services to our business segments. Such services include accounting, tax, cash management, procurement, human resources, employee benefits and information technology. The business segments are allocated costs for such services at amounts agreed upon by management. Such allocated costs may differ from amounts that might be negotiated at arms-length. Costs for such services that are not allocated to the business segments are included in shared services and corporate costs. Shared services and corporate also includes unallocated corporate costs, such as costs associated with being a public company.

Liquidity and Capital Resources

Our primary source of liquidity is our available cash and borrowing capacity under our revolving credit facility. Our primary source of cash is generated from our ongoing operations. Cash from operations can be affected by various risks and uncertainties, including, but not limited to, the effects of the COVID-19 pandemic. At the end of June 30, 2021, we had approximately \$86.0 million of cash on hand and \$393 million of additional borrowing capacity under our revolving credit facility. Based on our current business plan, we believe our cash flow from operations will provide sufficient liquidity to meet the Company's operating needs for the next 12 months.

Debt Covenants

Our term loans and our unsecured notes do not have maintenance covenants. The earliest maturity of our term loans and unsecured notes is the fourth quarter of 2024. Our revolving credit facility permits maximum leverage of 4.75 times the two-year average earnings before interest, taxes, depreciation and amortization (EBITDA) as defined by our credit agreement, through second quarter of 2022, at which point it steps down to 4.5 times. Based upon our current outlook, we expect to be in compliance with that covenant.

Cash Flows - Operating Activities

Cash flows from operating activities for the six months ended June 30 are as follows:

(in thousands)	Six Months Ended June 30,	
	2021	2020
Cash Flows from Operating Activities:		
Income (loss) from continuing operations, net of tax	\$ 4,716	\$ (24,710)
Adjustments to reconcile net income (loss) from continuing operations to net cash flows from operating activities:		
Depreciation and amortization	80,258	53,990
Losses (gains), net on disposal of property and equipment	155	2,740
Loss on extinguishment of debt	13,775	—
Gains on sale of business	(81,784)	—
Losses on stock warrants	99,118	—
Programming assets and liabilities	(47,490)	(10,662)
Restructuring impairment charges	7,050	—
Deferred income taxes	7,437	9,933
Stock and deferred compensation plans	18,384	7,446
Pension contributions, net of income/expense	(12,597)	(3,282)
Other changes in certain working capital accounts, net	(3,029)	37,740
Miscellaneous, net	6,185	8,287
Net cash provided by operating activities from continuing operations	92,178	81,482
Net cash used in operating activities from discontinued operations	(1,935)	(7,223)
Net operating activities	\$ 90,243	\$ 74,259

In 2021 and 2020, cash provided by operating activities from continuing operations was \$92.2 million and \$81.5 million, respectively. The \$11 million increase in cash provided by operating activities from continuing operations was attributable to a \$200 million year-over-year increase in segment profit. This increase in cash flow was partially offset by an \$11 million increase in interest paid, \$54.1 million increase in income taxes paid, \$30.2 million increase in acquisition and integration costs, \$7.3 million increase in contributions to defined retirement plans and year-over-year cash outlay increase of \$37 million for programming investments in excess of programming amortization. The increase in interest payments reflects the impact of the \$800 million term loan B issued in January 2021 related to the ION acquisition. Additionally, year-over-year cash provided from changes in accounts receivable decreased \$26 million in 2021 compared to 2020. As we did not acquire working capital in the Nexstar-Tribune acquisition, and as advertisers tend to pay on a 60- to 90-day lag, fourth quarter 2019 revenue resulted in growth of the accounts receivable balance. In 2020, we received \$37 million from Nexstar related to cash that was collected on our December 31, 2019 receivables.

Cash Flows - Investing Activities

Cash flows from investing activities for the six months ended June 30 are as follows:

(in thousands)	Six Months Ended June 30,	
	2021	2020
Cash Flows from Investing Activities:		
Acquisitions, net of cash acquired	\$ (2,679,798)	\$ 2,500
Proceeds from sale of Triton Digital, net of cash disposed	224,990	—
Acquisition of intangible assets	(430)	(1,041)
Additions to property and equipment	(27,984)	(26,950)
Purchase of investments	(1,431)	(5,361)
Proceeds from FCC repack	14,190	9,427
Miscellaneous, net	44	773
Net cash used in investing activities from continuing operations	(2,470,419)	(20,652)
Net cash used in investing activities from discontinued operations	—	(333)
Net investing activities	<u>\$ (2,470,419)</u>	<u>\$ (20,985)</u>

In 2021 and 2020, we used \$2.5 billion and \$20.7 million, respectively, in cash for investing activities from continuing operations. The primary factors affecting these cash flows for the periods presented are described below.

- In 2021, we acquired ION for \$2.7 billion, net of cash acquired.
- In March 2021, we completed the sale of our Triton business for a total net proceeds of \$225 million.
- In 2021, we contributed \$1.4 million in cash to our investments.
- In 2021 and 2020, we received \$14.2 million and \$9.4 million, respectively, in reimbursement proceeds from the FCC repacking process.

In the repacking process associated with the incentive spectrum auction conducted by the FCC in 2017, the FCC has reassigned some stations to new post-auction channels. We do not expect reassignment to new channels to have a material impact on our stations' broadcast signals as viewed in their markets. Twenty-seven of our current full power stations (including nine from recent acquisitions) have been assigned to new channels. The legislation authorizing the incentive auction and repack provides the FCC with up to a \$2.75 billion fund to reimburse reasonable costs incurred by stations that are reassigned to new channels in the repack. We expect the FCC fund will be sufficient to cover the costs we would expect to incur for the repack and that our only potential funding risks would be limited to any disagreements with the FCC over reimbursement of expenditures incurred. Reimbursements provided by the FCC are recognized as the cash is received.

We have spent \$49.8 million to date on FCC repack. As of early July 2020, all full power stations were operating on their reassigned channels. We will incur incremental costs through the remainder of 2021 to complete work delayed by the COVID-19 pandemic. We received reimbursement proceeds from the FCC of \$14.2 million during the six months ended June 30, 2021 and have a remaining FCC repack receivable balance of \$1.1 million as of June 30, 2021.

Cash Flows - Financing Activities

Cash flows from financing activities for the six months ended June 30 are as follows:

(in thousands)	Six Months Ended June 30,	
	2021	2020
Cash Flows from Financing Activities:		
Net borrowings under revolving credit facility	\$ —	\$ 50,000
Proceeds from issuance of long-term debt	800,000	—
Proceeds from issuance of preferred stock	600,000	—
Payments on long-term debt	(459,306)	(5,306)

Payments on financing costs	(50,597)	—
Payments for capitalized preferred stock issuance costs	(11,526)	—
Dividends paid on common and preferred stock	(21,067)	(8,259)
Tax payments related to shares withheld for vested stock and RSUs	(6,604)	(2,292)
Miscellaneous, net	(517)	(21,438)
Net cash provided by financing activities from continuing operations	<u>\$ 840,131</u>	<u>\$ 12,705</u>

In 2021 and 2020, cash provided by financing activities from continuing operations was \$840 million and \$12.7 million, respectively. As of June 30, 2021, we had no outstanding borrowings under our revolving credit facility. Other factors impacting our cash flows from financing activities from continuing operations are described below.

On January 7, 2021, we issued an \$800 million term loan B, maturing in 2028, in connection with the closing of the ION acquisition. Additionally, we entered into a Securities Purchase Agreement with Berkshire Hathaway Inc., ("Berkshire Hathaway"), pursuant to which Berkshire Hathaway provided \$600 million of financing in exchange for 6,000 Series A Preferred Shares of the Company. The Preferred Shares, having a face value of \$100,000 per share, are perpetual and will be redeemable at the option of the Company beginning on the fifth anniversary of issuance, and redeemable at the option of the holders in the event of a Change of Control (as defined in the terms of the Preferred Shares), in each case at a redemption price of 105% of the face value, plus accrued and unpaid dividends (whether or not declared). Preferred stock dividends, effective through June 15, 2021, were paid in the first half of 2021 totaling \$21.1 million.

During the second quarter of 2021, we redeemed the \$400 million outstanding principal amount of our 2025 Senior Notes for a redemption price equal to 102.563% of the aggregate principal amount and we made an additional principal payment on the 2028 term loan totaling \$50 million. The debt was redeemed with cash on hand.

As of June 30, 2021, we have \$1.55 billion of senior notes and \$1.78 billion outstanding balance on our term loans. Our debt has required annual principal payments of \$18.6 million.

In May 2021, our Board of Directors provided additional debt repurchase program authorization pursuant to which we may reduce, through redemptions or open market purchases and retirement, a combination of the outstanding principal balance of our senior secured and senior unsecured notes. The authorization currently permits an aggregate principal amount reduction of up to \$600 million and expires on March 1, 2023.

In February 2020, our Board of Directors authorized a new share repurchase program of up to \$100 million of our Class A Common shares through March 1, 2022. Shares can be repurchased under the authorization via open market purchases or privately negotiated transactions, including accelerated stock repurchase transactions, block trades, or pursuant to trades intended to comply with Rule 10b5-1 of the Securities Exchange Act of 1934. No shares were repurchased under any authorizations during the first six months of 2021 or 2020. Under the terms of the Preferred Shares, we are prohibited from paying dividends on and repurchasing our common shares until all Preferred Shares are redeemed.

Other

We expect to contribute approximately \$13.3 million during the remainder of 2021 to fund our qualified defined benefit pension plan and our SERPs in order to meet our funding requirements under the provisions of the Pension Funding Equity Act of 2004 and the Pension Protection Act of 2006.

Off-Balance Sheet Arrangements and Contractual Obligations***Off-Balance Sheet Arrangements***

There have been no material changes to the off-balance sheet arrangements disclosed in our 2020 Annual Report on Form 10-K.

Critical Accounting Policies and Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (“GAAP”) requires us to make a variety of decisions that affect reported amounts and related disclosures, including the selection of appropriate accounting principles and the assumptions on which to base accounting estimates. In reaching such decisions, we apply judgment based on our understanding and analysis of the relevant circumstances, including our historical experience, actuarial studies and other assumptions. We are committed to incorporating accounting principles, assumptions and estimates that promote the representational faithfulness, verifiability, neutrality and transparency of the accounting information included in the financial statements.

Note 1 to the Consolidated Financial Statements included in our 2020 Annual Report on Form 10-K describes the significant accounting policies we have selected for use in the preparation of our financial statements and related disclosures. An accounting policy is deemed to be critical if it requires an accounting estimate to be made based on assumptions about matters that are highly uncertain at the time the estimate is made and if different estimates that reasonably could have been used or changes in estimates that are likely to occur could materially change the financial statements. We believe the accounting for acquisitions, goodwill and indefinite-lived intangible assets and pension plans to be our most critical accounting policies and estimates. A detailed description of these accounting policies is included in the Critical Accounting Policies section of Management's Discussion and Analysis of Financial Condition and Results of Operations included in our 2020 Annual Report on Form 10-K.

Recent Accounting Guidance

Refer to Note 2. Recently Adopted and Issued Accounting Standards of the Notes to Condensed Consolidated Financial Statements (Part I, Item 1 of this Form 10-Q) for further discussion.

Quantitative and Qualitative Disclosures About Market Risk

Earnings and cash flow can be affected by, among other things, economic conditions and interest rate changes. We are also exposed to changes in the market value of our investments.

Our objectives in managing interest rate risk are to limit the impact of interest rate changes on our earnings and cash flows and to reduce overall borrowing costs. We may use derivative financial instruments to modify exposure to risks from fluctuations in interest rates. In accordance with our policy, we do not use derivative instruments unless there is an underlying exposure, and we do not hold or enter into financial instruments for speculative trading purposes.

We are subject to interest rate risk associated with our credit agreement, as borrowings bear interest at LIBOR plus respective fixed margin spreads or spreads determined relative to our Company's leverage ratio. Accordingly, the interest we pay on our borrowings is dependent on interest rate conditions and the timing of our financing needs. With consideration for the LIBOR floor that is present in our term loans due in 2026 and 2028, a 100 basis point increase in LIBOR would increase annual interest expense on our variable rate borrowings by approximately \$8.2 million.

The following table presents additional information about market-risk-sensitive financial instruments:

Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Scripps management is responsible for establishing and maintaining adequate internal controls designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America (“GAAP”). The Company’s internal control over financial reporting includes those policies and procedures that:

1. pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Company;
2. provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and the directors of the Company; and
3. provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company’s assets that could have a material effect on the financial statements.

All internal control systems, no matter how well designed, have inherent limitations, including the possibility of human error, collusion and the improper overriding of controls by management. Accordingly, even effective internal control can only provide reasonable but not absolute assurance with respect to financial statement preparation. Further, because of changes in conditions, the effectiveness of internal control may vary over time.

The effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) was evaluated as of the date of the financial statements. This evaluation was carried out under the supervision of and with the participation of management, including the Chief Executive Officer and the Chief Financial Officer. Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the design and operation of these disclosure controls and procedures are effective.

There were no changes to the Company's internal controls over financial reporting (as defined in Exchange Act Rule 13a-15(f)) during the period covered by this report that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting. On January 7, 2021, we completed the acquisition of the ION Media Networks, Inc., and have excluded the business from management's reporting on internal control over financial reporting, as permitted by SEC guidance, for the quarter ended June 30, 2021. ION has total assets of approximately \$3.4 billion, or 53% of our total assets as of June 30, 2021, and revenues of \$266 million, or 24% of our total revenues for the six months ended June 30, 2021.
