1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation - The financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. The information disclosed in the notes to consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 1995 has not changed materially unless otherwise disclosed herein.

Financial information as of December 31, 1995 included in these financial statements has been derived from the audited consolidated financial statements included in that report. In management's opinion all adjustments (consisting of normal recurring accruals) necessary for a fair presentation of the interim periods have been made.

Results of operations are not necessarily indicative of the results that may be expected for future interim periods or for the full year.

Net Income Per Share - Net income per share computations are based upon the weighted average common shares outstanding. The weighted average common shares outstanding were as follows:

( in thousands )	Three months ended		Nine months ended	
	1996	September 30, 1995	1996	September 30, 1995
Weighted average shares outstanding	80,473	80,010	80,328	79,930

2. ACQUISITIONS AND DIVESTITURES

A. Acquisitions

1996 - In May the Company purchased the Vero Beach, Florida, Press-Journal.

1995 - There were no acquisitions in 1995.

The following table presents additional information about the acquisitions:

( in thousands )	Nine months ended September 30, 1996
Goodwill and other intangible assets acquired	\$ 110,967
Other assets acquired	10,900
Total	121,867
Liabilities assumed	(1,794)
6.17% note issued to seller, due in 1997	(100,000)
Cash paid	\$ 20,073

The acquisition has been accounted for as a purchase and accordingly the purchase price has been allocated to assets and liabilities based on fair values at the date of acquisition. The allocation was based on estimates and is subject to adjustment.

The acquired operation has been included in the Consolidated Statements of Income from the acquisition date. The following table summarizes, on an unaudited, pro forma basis, the estimated combined results of operations of Scripps and the Press-Journal assuming the acquisition had taken place at the beginning of the respective periods. The pro forma information includes adjustments for interest expense that would have been incurred to finance the acquisition, additional depreciation based on the fair market value of the property, plant, and equipment, and amortization of intangible assets resulting from the acquisition. The unaudited pro forma results of operations are not necessarily indicative of the results which actually would have occurred had the acquisition been completed at the beginning of the respective periods.

Net income	\$ .45	\$ .33	\$ 1.29	\$ 1.12

#### B. Divestitures

1996 - Scripps sold its equity interest in The Television Food Network, a cable programming network. No material gain or loss was realized as proceeds approximated the net book value of the net assets sold.

1995 - Scripps sold its Watsonville, California, daily newspaper. No material gain or loss was realized as proceeds approximated the net book value of the net assets sold.

#### 3. LONG-TERM DEBT

Long-term debt consisted of the following:

( in thousands )	September 30, 1996	As of December 31, 1995	September 30, 1995
6.17% note, due in 1997	\$ 100,000		
7.375% notes, due in 1998	29,658	\$ 31,658	\$ 61,272
Variable Rate Credit Facilities	12,500		
9.0% notes, due in 1996		47,000	47,000
Other notes	2,186	2,217	2,232
Total long-term debt	144,344	80,875	110,504
Current portion of long-term debt	112,540	78,698	47,043
Long-term debt (less current portion)	\$ 31,804	\$ 2,177	\$ 63,461

Scripps has a Competitive Advance/Revolving Credit Agreement and other variable rate credit facilities ("Variable Rate Credit Facilities") which expire through September 1997 and permit maximum borrowings up to \$50,000,000. Maximum borrowings under the facilities are changed as Scripps' anticipated needs change and are not indicative of Scripps' short-term borrowing capacity. The credit facilities may be extended upon mutual agreement.

Certain long-term debt agreements contain maintenance requirements on net worth and coverage of interest expense and restrictions on dividends and incurrence of additional indebtedness. Scripps is in compliance with all debt covenants.

#### 4. DISCONTINUED CABLE TELEVISION OPERATIONS

On October 28, 1995, Scripps and Comcast Corporation ("Comcast") reached an agreement pursuant to which Scripps will contribute all of its non-cable television assets to Scripps Howard, Inc. ("SHI" - a wholly-owned subsidiary of Scripps and the direct or indirect parent of all of Scripps' operations) and SHI's cable television system subsidiaries ("Scripps Cable") will be transferred to and held directly by Scripps. Scripps Cable will be acquired by Comcast through a tax-free merger (the "Merger") of Scripps into Comcast. The remaining SHI business will continue as "New Scripps", which will be distributed in a tax-free "spin-off" to Scripps shareholders (the "Spin-Off") prior to the Merger and thereafter renamed The E.W. Scripps Company. The Merger and Spin-off are collectively referred to as the "Transactions."

In connection with the Transactions, New Scripps has been recapitalized to include Common Voting Shares and Class A Common Shares and the Articles of Incorporation of New Scripps have been further amended to provide for substantially the same shareholder voting rights and other terms as the Scripps Certificate of Incorporation currently provides for. Prior to the Spin-Off New Scripps will issue to Scripps: (i) a number of New Scripps Common Voting Shares equal to the number of shares of Scripps Common Voting Stock then outstanding and (ii) a number of New Scripps Class A Common Shares equal to the number of shares of Scripps Class A Common Stock then outstanding. These shares will be distributed to Scripps' shareholders in the Spin-Off.

The closing date of the Transactions is expected to occur prior to the end of 1996, subject to certain conditions and rights, including termination and "top-up" rights described fully in the Joint Proxy Statement - Prospectus included in Comcast's registration statement on Form S-4 filed with the Securities and Exchange Commission and declared effective on September 30, 1996.

Because Scripps Cable represents an entire business segment that will be divested, its results are reported as "discontinued operations" for all periods presented.

Summarized operating results for the discontinued cable television operations are as follows:

( in thousands )

	Three months ended September 30,		Nine months ended September 30,	
	1996	1995	1996	1995
Operating revenues	\$ 77,976	\$ 71,110	\$ 231,408	\$ 207,855

Income from discontinued cable operations	\$ 12,268	\$ 10,277	\$ 34,645	\$ 28,650

In the third quarter of 1995 Scripps Cable accrued an additional \$1,400,000 based upon a reassessment of the ultimate costs of certain lawsuits (see Note 5). The accrual reduced income from discontinued operations \$900,000. Also in the third quarter of 1995 Scripps sold its Barbourville, Ky. cable television system, realizing a pre-tax gain of \$1,500,000, \$900,000 after tax.

Summarized balance sheet data for the discontinued cable television operations are as follows:

( in thousands )

	September 30, 1996	As of December 31, 1995	September 30, 1995

In January 1996 Scripps Cable acquired cable television systems adjacent to its Knoxville and Chattanooga systems (the "Mid-Tenn. Purchase") for \$62,500,000, including assumed liabilities. The acquired cable television systems are included in the results of discontinued operations from the acquisition date.

##### 5. COMMITMENTS AND CONTINGENCIES

In 1994 Scripps accrued an estimate of the ultimate costs, including attorneys' fees and settlements, of lawsuits filed by certain former employees and independent contractors of a divested operating unit. The lawsuits allege that the employees were due severance pay and that certain contractual obligations were unfulfilled, respectively. In April 1996 Scripps agreed to settle the severance pay lawsuits. The settlement did not result in an additional charge. Management believes the possibility of incurring a loss greater than the amount accrued for the independent contractor lawsuits is remote.

In 1994 Scripps Cable accrued an estimate of the ultimate costs, including attorneys' fees and settlements, of certain lawsuits against the Sacramento cable television system related primarily to employment issues and to the timing and amount of late-payment fees assessed to subscribers. In the third quarter of 1995 Scripps Cable accrued an additional \$1,400,000 based upon a reassessment of the probable cost of these and additional employment related lawsuits. In May 1996 Scripps Cable agreed to settle the late-payment fee lawsuits. The settlement did not result in an additional charge. Management believes the possibility of incurring a loss greater than the amount accrued for the employment issues lawsuits is remote. Pursuant to the terms of the Merger, New Scripps will indemnify Comcast against losses related to these lawsuits.

Amounts accrued, less payments for settlements and attorneys fees, are included in accrued lawsuits and related settlements in the Consolidated Balance Sheets.

Earnings before interest, income taxes, depreciation, and amortization ("EBITDA") is included in the discussion of segment results because:

Changes in depreciation and amortization are often unrelated to current performance. Management believes the year-over-year change in EBITDA is a more useful measure of year-over-year performance than the change in operating income because, combined with information on capital spending plans, it is a more reliable indicator of results that may be expected in future periods. However, management's belief that EBITDA is a more useful measure of year-over-year performance is not shared by the accounting profession.

Banks and other lenders use EBITDA to determine Scripps' borrowing capacity.

Financial analysts use EBITDA to value communications media companies.

Acquisitions of communications media businesses are based on multiples of EBITDA.

EBITDA should not, however, be construed as an alternative measure of the amount of Scripps' income or cash flows from operating activities as EBITDA excludes significant costs of doing business.

In the second quarter of 1996 Scripps incurred an unusual charge of approximately \$4,000,000, \$2,600,000 after-tax, \$.03 per share, for Scripps' share of certain costs associated with restructuring portions of the distribution system of the Cincinnati joint operating agency.

Scripps acquired the Vero Beach daily newspaper on May 9, 1996, sold its equity interest in The Television Food Network ("TV Food") in the second quarter of 1996, and sold its Watsonville, California, daily newspaper in the first quarter of 1995.

Year-to-date operating losses for the Home & Garden Television network ("HGTV") totaled \$12,200,000, \$7,500,000 after-tax, \$.09 per share in 1996 and \$10,500,000, \$6,400,000 after-tax, \$.08 per share in 1995. Operating losses for the quarterly periods were \$5,300,000, \$3,300,000 after-tax, \$.04 per share in 1996 and \$3,900,000, \$2,300,000 after-tax, \$.03 per share in 1995.

Interest expense decreased in the year-to-date period as a result of reduced average borrowings. However, primarily because of the acquisition of the Vero Beach newspaper, total long-term debt increased \$63,500,000 in 1996 to \$144,000,000, which is \$34,000,000 more than at the end of the third quarter in 1995.

Operating results, excluding TV Food and the Watsonville newspaper, are presented below and on the following pages. The results of the divested operating units are excluded from the segment operating results because management believes they are not relevant to understanding Scripps' ongoing operations.

Declining newsprint prices led to the 25% increase in EBITDA in the third quarter. The average price of newsprint in the third quarter of 1996 was approximately 11% less than in the third quarter of 1995.

Higher advertising rates were the primary cause of the increase in advertising revenues as volume decreased in many of Scripps' newspaper markets in the third quarter. Approximately half of the year-over-year increase in advertising revenues and 80% of the increase in advertising inches is due to the May 9, 1996 acquisition of The Vero Beach newspaper.

The increase in employee costs is due primarily to Scripps' expanded schedules of local news programs. Construction of new facilities at the Phoenix and Tampa stations resulted in the increase in 1996 year-to-date capital spending. Depreciation and amortization decreased in the third quarter of 1996 as certain intangible assets acquired in the 1991 purchase of the Baltimore station became fully amortized.

Licensing revenues in the third quarter benefited from the strength of "Peanuts" in Japan, offset somewhat by the reduced value of the yen, and from the growing popularity of "Dilbert" in the U.S.

Program production revenues are subject to substantial fluctuation due to the timing of completion and delivery of programs. Program production revenues decreased in the year-to-date period as fewer programs were completed and delivered by Scripps Howard Productions ("SHP") and Cinetel. Program production revenues for the full year of 1996 are expected to increase however, as SHP has commitments for four network prime-time programs to be delivered in 1996 compared to two in 1995.

Subscriber fees and advertising revenue increased due to the continued growth of HGTV.

Year-to-date operating losses for HGTV totaled \$12,200,000 in 1996 and \$10,500,000 in 1995. Operating losses for the quarterly periods were \$5,300,000 in 1996 and \$3,900,000 in 1995.

Programming and production costs increased due to higher programming costs associated with the growth of HGTV.

United Media distributes news columns, comics, and features, and licenses copyrights for "Peanuts", "Dilbert", and other character properties on a worldwide basis. Revenues from outside the U.S. represent less than 5% of Scripps' total revenues. The Japanese market provides more than two-thirds of international revenues and approximately 45% of total licensing revenue. The impact of changes in the value of the U.S. dollar in foreign exchange markets does not have a significant effect on the recorded value of Scripps' foreign-currency-denominated assets, which are primarily related to uncollected licensing royalties and represent less than 1% of total assets. Scripps' foreign-currency-denominated liabilities are primarily related to payments due to creators of the properties. However, comparison of year-over-year licensing revenues can be significantly affected by changes in the exchange rate for the Japanese yen. Japanese licensing revenues in local currency increased 24% in the 1996 year-to-date period, however the change in the exchange rate caused such revenues to increase only 4% in dollar terms. The effect on licensing revenues of changes in the exchange rate for other foreign currencies is not significant.

From time-to-time Scripps uses foreign currency forward and option contracts to hedge cash flow exposures denominated in Japanese yen. The purpose of the contracts is to reduce the risk of changes in the exchange rate on Scripps' anticipated net licensing receipts (licensing royalties less amounts due creators of the properties and certain direct expenses) for the following year. The maturities of the contracts coincide with the quarterly payments of licensing royalties. Scripps does not hold foreign currency contracts for trading purposes and does not hold leveraged contracts.

Information about Scripps' foreign currency contracts, which require Scripps to sell yen at a specified rate, at September 30, 1996 was as follows:

Maturity Date	Contract Amount (in yen)	Exchange Rate	US Dollar Equivalent
11/15/96	143,835,000	95.89	1,500,000
2/18/97	151,635,000	101.09	1,500,000
5/15/97	150,345,000	100.23	1,500,000
8/15/97	160,440,000	106.96	1,500,000

Capital expenditures in 1995 primarily relate to the launch of HGTV. The increase in depreciation and amortization is primarily due to the start-up of HGTV.

#### LIQUIDITY AND CAPITAL RESOURCES

Scripps generates significant cash flow from operating activities, primarily from its newspaper and broadcast television operations. There are no significant legal or other restrictions on the transfer of funds among Scripps' business segments. Cash flows provided by the operating activities of the newspaper and broadcast television segments in excess of the capital expenditures of those segments are used to invest in the entertainment segment and to fund corporate expenses. Management expects total cash flow from continuing operating activities in 1996 will exceed Scripps' expected capital expenditures, debt repayments, and dividend payments.

Cash flow provided by continuing operating activities was \$113,500,000 in 1996 compared to \$57,800,000 in 1995. Cash flow provided by continuing operating activities in 1995 was reduced by a \$45,000,000 payment to settle the audit of Scripps' 1985 through 1987 federal income tax returns.

Net debt (borrowings less cash equivalent and other short-term investments) totaled \$144,300,000 at September 30, 1996 and was 10% of total capitalization. Management believes Scripps' cash and cash equivalents and substantial borrowing capacity, taken together, provide adequate resources to fund the capital expenditures and future expansion of existing businesses and the development or acquisition of new businesses.
