Item 2.02 Results of Operations and Financial Condition

On May 4, 2009, we released information regarding results of operations for the year-to-date period ended March 31, 2009. A copy of the press release is filed as Exhibit 99.03.

The discussion and the information contained in the press release contain certain forward-looking statements related to the company's businesses that are based on our current expectations. Forward-looking statements are subject to certain risks, trends, and uncertainties that could cause actual results to differ materially from the expectations expressed in the forward-looking statements. Such risks, trends and uncertainties, which in most instances are beyond our control, include changes in advertising demand and other economic conditions; consumers' tastes; newsprint prices; program costs; labor relations; technological developments; competitive pressures; interest rates; regulatory rulings; and reliance on third-party vendors for various products and services. The words "believe," "expect," "anticipate," "estimate," "intend," and similar expressions identify forward-looking statements. All forward-looking statements, which are as of the date of this filing, should be evaluated with the understanding of their inherent uncertainty. We undertake no obligation to publicly update any forward-looking statement to reflect events or circumstances after the date the statement is made.

Scripps reports first-quarter results

For immediate release (NYSE: SSP)
May 4, 2009

CINCINNATI – The E.W. Scripps Company today reported first-quarter operating results for its television, newspaper, and licensing and syndication businesses. The operations that formerly comprised the company's Scripps Networks and interactive media divisions, which were spun off into a separate publicly traded company (now Scripps Networks Interactive Inc.) on July 1, 2008, are reported in previous periods as discontinued operations.

In February, the company closed the Rocky Mountain News after an unsuccessful search for a buyer. As part of the process of exiting the Denver market, Scripps expects to transfer its 50 percent interest in the Denver Newspaper Agency (DNA), which published the Rocky Mountain News and The Denver Post under a joint operating agreement and Prairie Mountain Publishing (PMP), a Colorado newspaper partnership, to MediaNews Group, which was the company's partner in PMP as well as DNA. In 2008 the company closed its Albuquerque newspaper, which had been operated under a joint operating agreement, after an unsuccessful search for a buyer.

The quarterly results reflect continued weakness in advertising sales at the company's newspapers and television stations. Consolidated revenue decreased 20 percent to \$205 million, compared with \$256 million in the first quarter of 2008. The loss from continuing operations, net of tax, was \$221 million, or \$4.12 per share, compared with income from continuing operations, net of tax, of \$8.6 million, or 16 cents per share, in the 2008 quarter.

Income (loss) from continuing operations, net of tax, included the following items in the first quarter:

- a preliminary non-cash impairment charge of \$192 million to write down the carrying value of the goodwill and other intangible assets at the Scripps television stations,
- operating losses and wind-down costs at the company's newspapers operated under joint operating agreements and newspaper partnerships of \$13.3 million in 2009 (compared with operating income at such newspapers of \$1.2 million in 2008), and
- a non-cash curtailment charge of \$2.6 million related to the company's decision to freeze its pension plan later this year.

Excluding those items, the net loss from continuing operations attributable to Scripps shareholders would have been \$13.0 million, or 24 cents per share, in the first quarter of 2009, compared with net income from continuing operations of \$7.4 million, or 14 cents per share, in the year-ago period.

At the end of the quarter, the company's long-term debt stood at \$73.1 million, an increase of \$12.0 million from the end of 2008. During the quarter, the value of cash and short-term investments on the company's balance sheet increased \$18.3 million to \$44.9 million. The increase in cash and marketable securities was due primarily to the reimbursement of taxes paid in the third quarter of 2008 on income attributable to Scripps Networks Interactive prior to the spin-off.

"In the first quarter we made a series of tough decisions intended to improve our financial position through the current economic downturn and beyond into what we believe will be a restructured environment for local media," said Rich Boehne, president and chief executive officer of Scripps. "The most difficult decision, but also the one that eliminated significant financial risk, was the shutdown of the Rocky Mountain News in Denver. Operating losses and expenses related to the shutdown were confined to the first quarter, so now we move ahead sadly but in a much better position to weather the economic storm and focus on the television and newspapers markets where we have long-term opportunity. Unfortunately, the operating environment in the second quarter has shown no signs of improvement over our experience in the first quarter.

"We also suspended the company's match of employee contributions to their 401(k) accounts, reduced salaries, eliminated bonuses, and decided to freeze our pension plan, plus we reduced or cut out a long list of other expenses. These savings will become more significant as we move through the remainder of the year.

"Despite all we've done to reduce expenses during these difficult days, we have not done so indiscriminately. Today our low debt is a competitive advantage, allowing us to leverage our investments in local news and information content. In this period of dramatic economic pressure, we're determined to stay focused on the needs of viewers, readers and advertisers."

First-quarter results by segment are as follows:

Television

Revenue from the company's television stations was \$60.4 million in the first quarter, a decrease of 20.5 percent from the first quarter of 2008.

Revenue broken down by category was:

- Local, down 22.1 percent to \$35.6 million
- National, down 16.9 percent to \$18.4 million
- Other, which includes retransmission, rose 41.5 percent to \$4.2 million
- Political was \$177,000, compared to \$3.1 million in the 2008 quarter

The decrease in the local and national revenue was largely attributable to reduced spending by advertisers in the automotive, financial services and retail categories. As is common for this stage of the election cycle, there was virtually no political spending in the first quarter of 2009, compared with the year-ago period that included local, state and national primaries.

Cash expenses for the station group increased slightly to \$62.8 million, compared with \$61.8 million a year ago. Increased pension benefits costs and a curtailment charge related to the company's plans to freeze the pension plan later this year more than offset a 5 percent decrease in other employee costs. Programming costs were 12 percent higher due to contractual increases for syndicated programming in several key markets.

The segment loss for the television division was \$2.4 million in the first quarter, compared with \$14.2 million in segment profit in the first quarter of 2008.

Newspapers

Year-over-year revenue from newspapers managed solely by Scripps fell 21.7 percent to \$122 million. Advertising revenue was down 28.6 percent to \$85.8 million.

Advertising revenue broken down by category was:

- Local, down 24.9 percent to \$26.6 million
- Classified, down 37.7 percent to \$26.6 million
- National, down 25.7 percent to \$6.0 million
- Preprint and other, down 19.7 percent to \$19.3 million
- Online, down 26.5 percent to \$7.3 million

The decline in online ad revenue is attributable to the weakness in print classified advertising, to which 55 percent of the online advertising is tied. Revenue from pure-play advertisers who only purchase ads on the company's newspaper Web sites rose 30 percent to \$3.4 million.

Circulation revenue rose slightly to \$30.6 million.

Cash expenses for Scripps newspapers were down 8.6 percent from the prior year to \$119 million. Employee costs, including higher pension benefits costs and a curtailment charge related to the company's plans to freeze the pension plan later this year, declined 7 percent during the quarter compared with the year-ago period. Newsprint expense declined 16 percent despite a 27 percent increase in the average price per ton during the quarter.

Segment profit at newspapers managed solely by the company was \$2.9 million, compared with \$25.6 million in the first quarter of 2008.

Licensing and Other Media

Revenue was \$23.1 million, a 2.1 percent decrease from the prior-year period. Costs and expenses declined 7.2 percent to \$20 million, resulting in a 50 percent increase in segment profit to \$3.2 million.

Conference call

The senior management of The E.W. Scripps Company will discuss the company's first-quarter results during a telephone conference call at 9 a.m. EDT today. Scripps will offer a live audio webcast of the conference call. To access the webcast, visit www.scripps.com, choose "Shareholders" then follow the link in the "Upcoming Events" section.

To access the conference call by telephone, dial 1-800-230-1092 (U.S.) or 1-612-234-9960 (International), approximately 10 minutes before the start of the call. Callers will need the name of the call ("first-quarter earnings report") to be granted access. Callers also will be asked to provide their name and company affiliation. A replay line will be open from 11 a.m. EDT May 4 until 11:59 p.m. EDT May 11. The domestic number to access the replay is 1-800-475-6701 and the international number is 1-320-365-3844. The access code for both numbers is 995121.

A replay of the conference call will be archived and available online for an extended period of time following the call. To access the audio replay, visit www.scripps.com approximately four hours after the call, choose "Shareholders" then follow the "audio archives" link on the left navigation bar.

Forward-looking statements

This press release contains certain forward-looking statements related to the company's businesses that are based on management's current expectations. Forward-looking statements are subject to certain risks, trends and uncertainties, including changes in advertising demand and other economic conditions that could cause actual results to differ materially from the expectations expressed in forward-looking statements. All forward-looking statements should be evaluated with the understanding of their inherent uncertainty. The company's written policy on forward-looking statements can be found on page F-3 of its 2008 SEC Form 10K. We undertake no obligation to publicly update any forward-looking statements to reflect events or circumstances after the date the statement is made.

Notes to Results of Operations

1. OTHER CHARGES AND CREDITS

Loss from continuing operations before income tax was affected by the following:

2009 — Separation costs include the costs to separate and install separate information systems as well as other costs related to our separation from SNI. Efforts to separate and install separate systems are expected to continue through the end of the second quarter. These costs increased loss from continuing operations by \$1.5 million in the first quarter.

In the first quarter we recorded a \$216 million, non-cash charge to reduce the carrying value of our goodwill and other indefinite lived intangible assets for our Television division.

2. SEGMENT INFORMATION

We determine our business segments based upon our management and internal reporting structure. Our reportable segments are strategic businesses that offer different products and services.

Our newspaper business segment includes daily and community newspapers in 15 markets in the U.S. Newspapers earn revenue primarily from the sale of advertising to local and national advertisers and from the sale of newspapers to readers.

JOAs and newspaper partnerships include a newspaper that is operated pursuant to the terms of joint operating agreement. The newspaper in the JOA maintains an independent editorial operation and receives a share of the operating profits of the combined newspaper operations. This segment also includes newspaper partnerships. We account for our share of the earnings of our JOA and newspaper partnerships using the equity method of accounting. Our equity in earnings of our JOA and newspaper partnerships is included in "Equity in earnings of JOAs and other joint ventures" in our results from operations. When we ceased the publication of our Albuquerque newspaper our investment became a passive investment and the equity earnings are no longer included in segment profit from 2008 forward.

Television includes six ABC-affiliated stations, three NBC-affiliated stations and one independent station. Our television stations reach approximately 10% of the nation's television households. Television stations earn revenue primarily from the sale of advertising to local and national advertisers.

Licensing and other media aggregates our operating segments that are too small to report separately, and primarily includes syndication and licensing of news features and comics.

In addition, certain corporate costs and expenses, including information technology, pensions and other employee benefits, and other shared services, are allocated to our business segments. The allocations are generally amounts agreed upon by management, which may differ from amounts that would be incurred if such services were purchased separately by the business segment. Corporate assets are primarily cash, cash equivalents and other short-term investments, property and equipment primarily used for corporate purposes, and deferred income taxes.

Our chief operating decision maker (as defined by SFAS 131 — Segment Reporting) evaluates the operating performance of our business segments and makes decisions about the allocation of resources to our business segments using a measure we call segment profit. Segment profit excludes interest, income taxes, depreciation and amortization, impairment charges, divested operating units, restructuring activities (including our proportionate share of JOA restructuring activities), investment results and certain other items that are included in net income (loss) determined in accordance with accounting principles generally accepted in the United States of America.
